

Hello!

We're working to control invasive, non-native weeds, which threaten all the lovely flowers and other native plants at Edgewood

Our Habitat Restoration program is a collaboration between:

*- San Mateo County Parks & Recreation -
- California Native Plant Society -
- Friends of Edgewood -*

But the real muscle comes from everyday folks who volunteer to help keep the park beautiful

We'd LOVE to have YOUR help too!

**To learn more, just ask us about the program...
and feel free to take a flier or card too!
(see other side of sign)**

*It's EASY... It's EDUCATIONAL... And it's FUN...
Come on out and join us!*

IMPORTANT NOTE: *DON'T DO THIS ON YOUR OWN!*
Plant removal & going off trail require a permit (and only CNPS has one)
